

Company Profile

Your journey begins here, with us.
Get ready for the adventure.

The Story of RahaCo.

Currently, we have established three offices within the borders of Iran, primarily centered in the prominent city of Tehran, where our headquarters is located. Over time, RahaCo. has flourished as a reputable brand, employing more than 50 individuals. Despite our impressive growth, we refuse to become complacent and hold ourselves to higher standards. Our ambitious aim is to elevate our accomplishments by twofold, as we strive towards reaching our goals by the conclusion of next year.

RahaCo.'s journey first began within a small suburban office, consisting of three team members. Along the way, we have faced and overcome numerous obstacles and trials.

Welcome To RahaCo.

Since 2015, RahaCo. has been a leader in the market, offering unparalleled services from our two established locations and with a workforce of over 50 skilled professionals. Within our organization, we embrace the values of fairness, collaboration and solidarity, promoting a harmonious and welcoming working environment. Our employee base is comprised of experienced and accomplished individuals who we continuously strive to encourage and empower to reach their full potential. We provide the highest quality products to our customers, and our future is built on mutual trust and communication.

Our Facilities

Sales Floor

This area devoted to retail markets, such as a showroom or selling zone, is usually operated by a sales team and is open to the public for free products and services.

DM Department

This department is in charge of developing and implementing the company's digital marketing strategies.

IT Department

RahaCo. is a specialized guide for providing and implementing virtualization solutions.

Our Facilities

Finance Department

This unit is critical in making financial decisions for both internal as well as external issues

HR

This department is in charge of employee screening, enrollment, and training, as well as the implementation of employee processes

Assembly Department

Professional assemblers, engineers, and technicians who specialize in all work processes make up the assembly department in RahaCo.

Our Vision

01. Learning

Our cherished objective is to cultivate a thriving company, which is unattainable without the entire team valuing the significance of learning.

02. Customer Experience

As a corporation that has direct interaction with customers, our triumph relies on guaranteeing their favorable experience.

03. Integrity

At RahaCo., our principles revolve around disapproving of deceit in corporate as well as customer dealings. We aim for a business environment where acting ethically at all times is the only approach we embrace.

Our Mission

- 01. Networking**
At RahaCo., we guarantee uninterrupted networking with both prospective and current partners.
- 02. Personalization**
We value the experience of every individual user, and a personalized experience is a key element in ensuring their satisfaction.
- 03. Accessibility**
As an inclusive service provider and employer, RahaCo. places high priority on ensuring accessibility.
- 04. Fast Restock**
We understand the significance of having reliable production quality and availability, hence our Logistics team is constantly monitoring production and restocking processes.

Dr. Raana Manafi
CEO of RahaCo.

whatever you do and wherever life takes you, remember to believe in yourself. if you trust the success of your idea, don't let anyone convince you otherwise.

How Things work

Quality Assurance

At our organization, we ensure the quality of services by conducting monthly testing while taking into consideration the specific needs of our customers.

Quality Control

We deliver only thoroughly quality-checked products, and testing is conducted at every stage of the production process to achieve this.

Data safety

To ensure the privacy of our clients' data, we store it on the most secure servers available.

Client Safety

At our organization, we prioritize the safety of our clients, hence our 24/7 customer support and use of the most dependable security systems.

OUR SERVICES

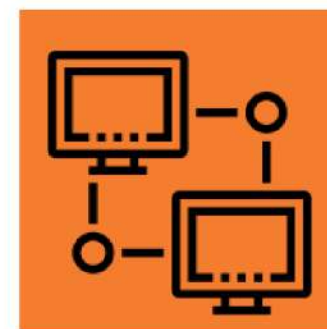

Server virtualization

The area of RahaCo.'s expertise lies within the realm of server virtualization. Our services in this field enable operating systems to become hardware-independent, thereby eliminating the need for hardware dependencies.

Application virtualization

Through this feature, individuals are able to access and utilize desired applications without the prerequisite of installing such software onto their personal computer systems.

Network virtualization

The field of network virtualization involves the virtualization of a range of equipment including cables, switches, routers, firewalls and other such hardware.

Desktop virtualization

Desktop virtualization presents a solution wherein the operating system utilized by the user is transferred into a virtual environment hosted on a server.

SERVICES

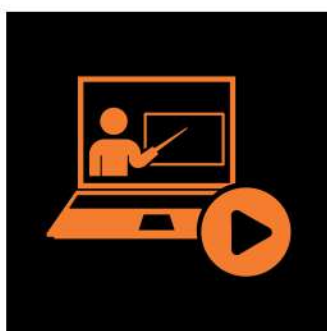

UTM

The integrated threat management system is in the category of third or next generation firewalls.

VOIP

VoIP means voice over internet protocol. This system can be provided both as hardware and as a virtual machine.

LMS

Raha Class is one of the modern tools for education that provides educational content using email, website and software in computer networks.

Telecommuting

A remote work system is a combination of software and hardware that allows users to access their desks from the network.

Monitoring

Raha monitoring system is developed based on ZABBIX and has a beautiful and functional environment.

LMS

(LEARNING MANAGEMENT SYSTEM)

1. user-friendly with Persian environment

The classroom environment has been designed with the goal of providing users with a pleasant experience with technology.

2. high-quality and consistent communication

The most critical component in online events is communication quality and consistency. To avoid disturbances, the virtual education system offers certain options to achieve this goal

3. Intelligent quality assurance

Raha Class can intelligently measure each user's internet status and change the connection quality to the users' internet quality.

4. Ability to record all meetings

Raha Class smartly records all meetings with little loudness at the manager's choice.

Fast processing

OUR PHILOSOPHY

01. Trust

Building trust is a must for a company that closely works with customers. we assure two-way communication, take feedback, and let our customers know what is new and what we are working on.

02. Inform

Keeping your users in the dark is no way to run a business. At RahaCo. we make sure that our customers are informed about all the changes happening and have their say.

03. Communication

As mentioned, we believe in healthy communication with the customer. Our customers are encouraged to be engaged in the development of our new products and strategies.

04. Motive

We believe that every product, big or small has to motivate its customer base to reach new heights, and explore all the possibilities.

UPCOMING PROJECTS

Renewed features

We have recently received our annual customer feedback. Based on that we came up with the renewed features that our customers asked for.

New Product Launch

We know that the market has been waiting for our new product to drop. We promise that the product will be presented this year and it will become a game changer for the market.

internship Openings

Our internship program is not limited to high school. This year we will also accept internship applications from university students and recent graduates.

New Office

We are going to have a Grand Opening of our new office building. in Moscow, Russia. We are excited to expand our horizons with a new market and new employees.

School Collaborations

Our company has always valued education and development which is why we are collaborating with local high schools and providing internship opportunities for selected students.

Work-Study Program

Alongside with our internship program, we are also launching a work-study program for students who are ready to put in more hours than the internship program requirements.

PAST PROJECTS

All the things we do

We take great pride in our endeavors and are delighted to showcase some of our successful projects, which represent our team's hard work and devotion. Our resilience to persist through challenging situations is reflected in the quality of our products, as we never waver from our pursuit of excellence.

ACHIEVEMENTS

Over the past years in this exceedingly challenging industry, we have accomplished notable recognitions from numerous international entities. For three consecutive years, we have proudly obtained the title of the top-ranked small tech company in Iran. Even though we acknowledge these accomplishments, we believe that this is just the start, and our incredible team is capable of attaining even more noteworthy achievements that we will soon exhibit.
